Subject: Milne Point Subpart OOOOa
Attachments: HECA_Alaska_Fugitive Monitoring Plan_mod_4-8-2019.pdf

Good Afternoon John,

As we discussed on the phone yesterday, please see the attached *Hilcorp Alaska, LLC Fugitive Emissions Monitoring Plan*.

As also discussed, there were three leaks identified at C Pad and placed on delay of repair in October 2018. The location descriptions and their photo/video record file names are listed below:

Location	Leak Identification	Confirmation of Repair
2 nd Stage Gas Comp, Cyl #4 below suction bottle above 2 nd stage discharge, threaded bolt on plate	MOV_1027 DC_1010	MOV_1594
3rd Stage suction bottle, Cyl #3, left side plate seal between body of Cyl 3 and 8 bolt flange (underneath)	MOV_1017 DC_1019	MOV_1593
C-21 Gas Lift Line, FE-2601J, threaded connection FT tubing	MOV_1070 IR_1072	MOV_1591

Due to size restrictions, I am unable to attach copies of our photo and video records. Please let me know if you would like us to drop off a cd with these records to your office.

Lastly, I have confirmed with the facility that the three leaks you identified while onsite have been planned for repair during our upcoming Turnaround scheduled to occur 7/26-8/26.

I hope your travels are going well and please let me know if there is any additional questions you have.

Thank you,
Julieanna
